"In my more than 20 years with East Central/Select Sires, I've been able to work with some of the most progressive dairymen in the state. Beyond providing opportunities to advance your education and career, East Central/Select Sires provides progressive dairymen with the newest technology and hires only the most qualified employees to work by your side."

-- Kurt Barnes, member service representative,
northern Fond du Lac County

"I chose to work for East Central/Select Sires because of the many opportunities they provide. As a member service representative, I have the chance to go farm to farm and provide farmers and managers with the best products and service possible. I also get to see great cows and different operations daily."

I believe this is a great place to learn more about the dairy industry, especially as a recent college graduate. It provides a great opportunity to apply what I've learned in many ways."

-- Ryan O'Leary, member service representative,
northern Dane County

"After working on a 600-cow dairy for four years (serving as herdsman for the last three), I decided I needed a change. I was looking for a job that would be a challenge, allow me the flexibility to do things my way, be able to stay in the dairy field, and get regular time off for myself and my family."

I applied at East Central/Select Sires, and after my interview, was sure this was the place for me. The wages are very competitive, the benefits are great, and best of all you're treated like family. If you have any questions, they will find someone to answer them. No problem is too big or too small. Another important feature is you're working for the best A.I. organization in the business."

I started as a relief A.I. technician, and soon after, I got my own area. Now, I make my own schedule, have regular time off, and enjoy life."

-- John Buske, member service representative,
northern Dodge and southern Fond du Lac County

Long-time-employee service

is a hallmark of East Central/Select Sires; however, opportunity awaits new employees as the cooperative continues to grow and prosper.

THE PROOF IS IN THE FIELD
